Subject: Thank you for standing up to Wilbur Ross; keep fighting for science

Mr. Jacobs: I read in today's NY Times, among other facts about the current Alabama issue:
"Mr. Ross instructed Dr. Jacobs to fix the agency's perceived contradiction of the president. Dr. Jacobs objected to the demand"

We ordinary Americans need to know we can rely on the National Weather Service in an emergency, for accurate current information - not political spinning. It's truly bizarre that I even have to say that; it shows how far things have degraded in less than three years.

Thank you for standing up for science, objective reality, and public safety.

Glenn Sandberg
